

MOBILE & WEB APPS

Every project is a  
journey. Let us guide  
you through yours.

**iOS, ANDROID, UNITY**

## Mobile Development

We build dynamic and creative mobile apps customized to your needs. iOS, Android, or dual-platform - we'll take your vision and turn it into a reality.

**LARAVEL, REACT, ANGULAR, WORDPRESS**

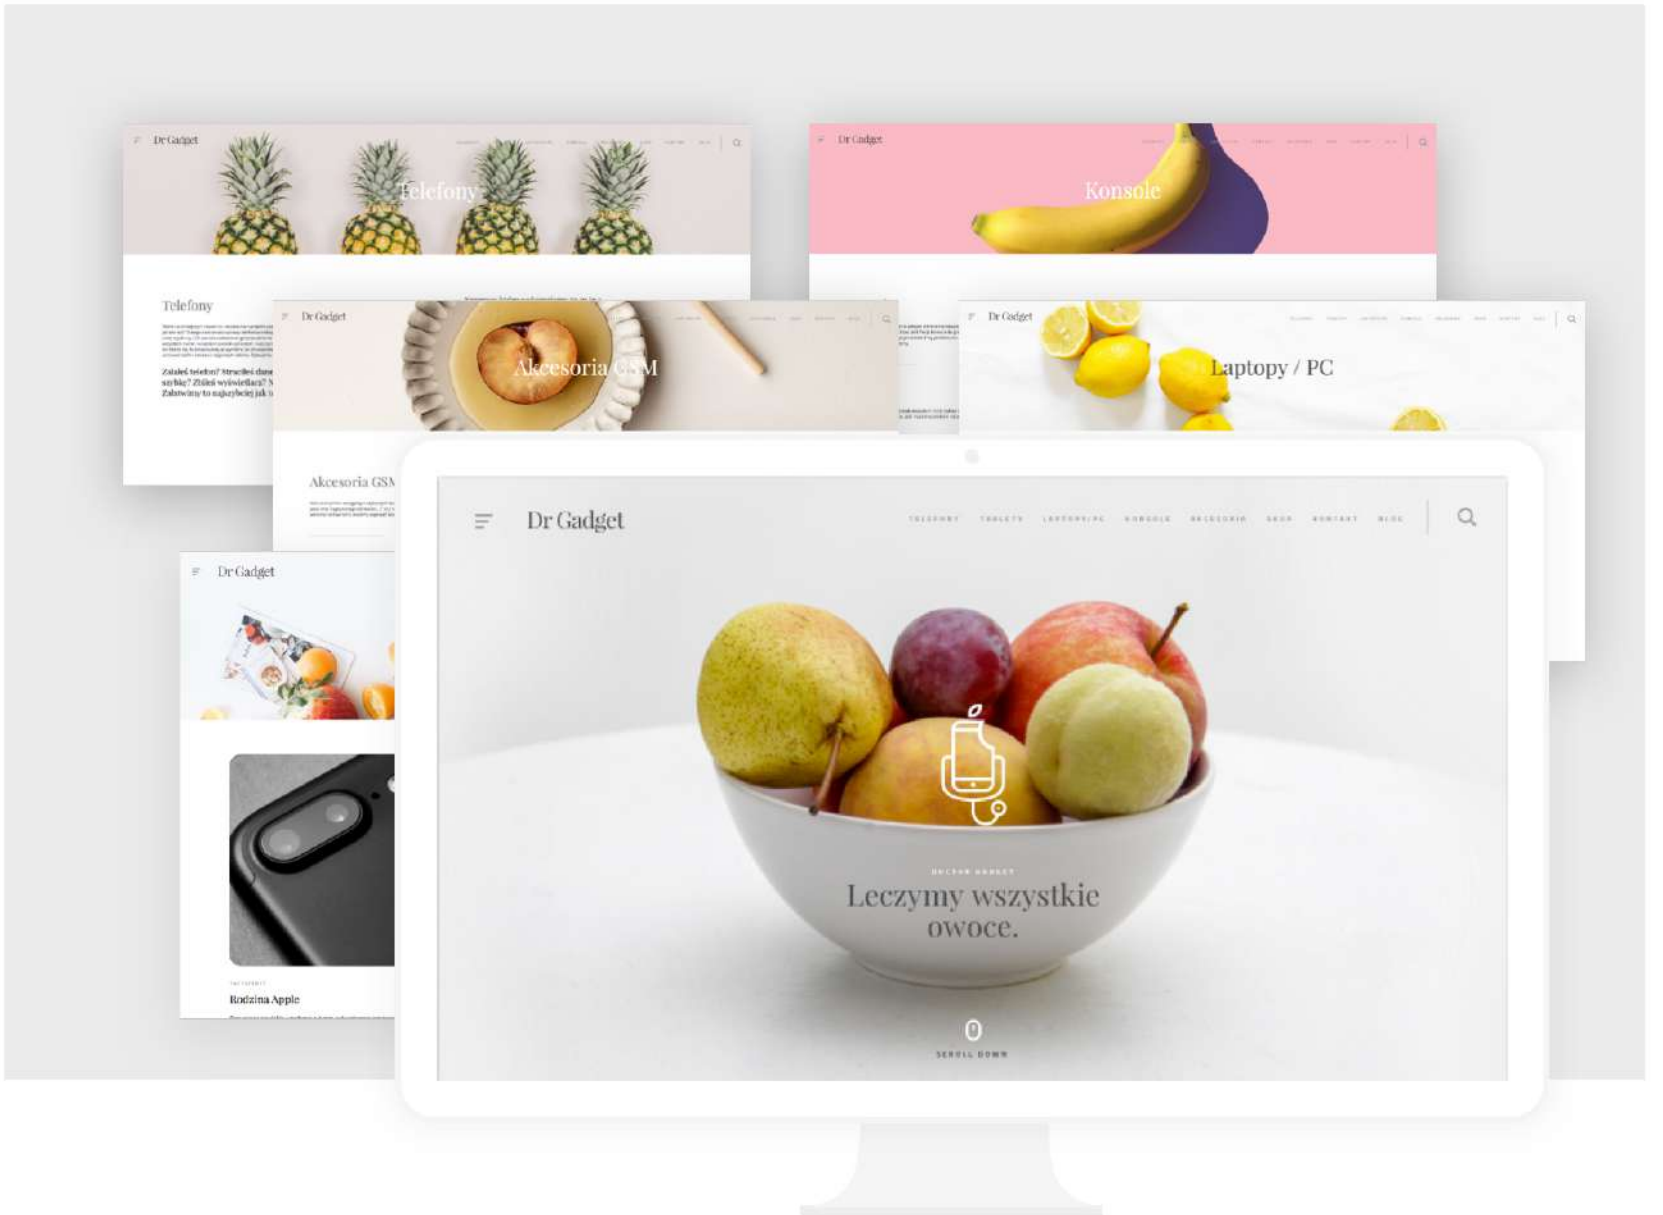

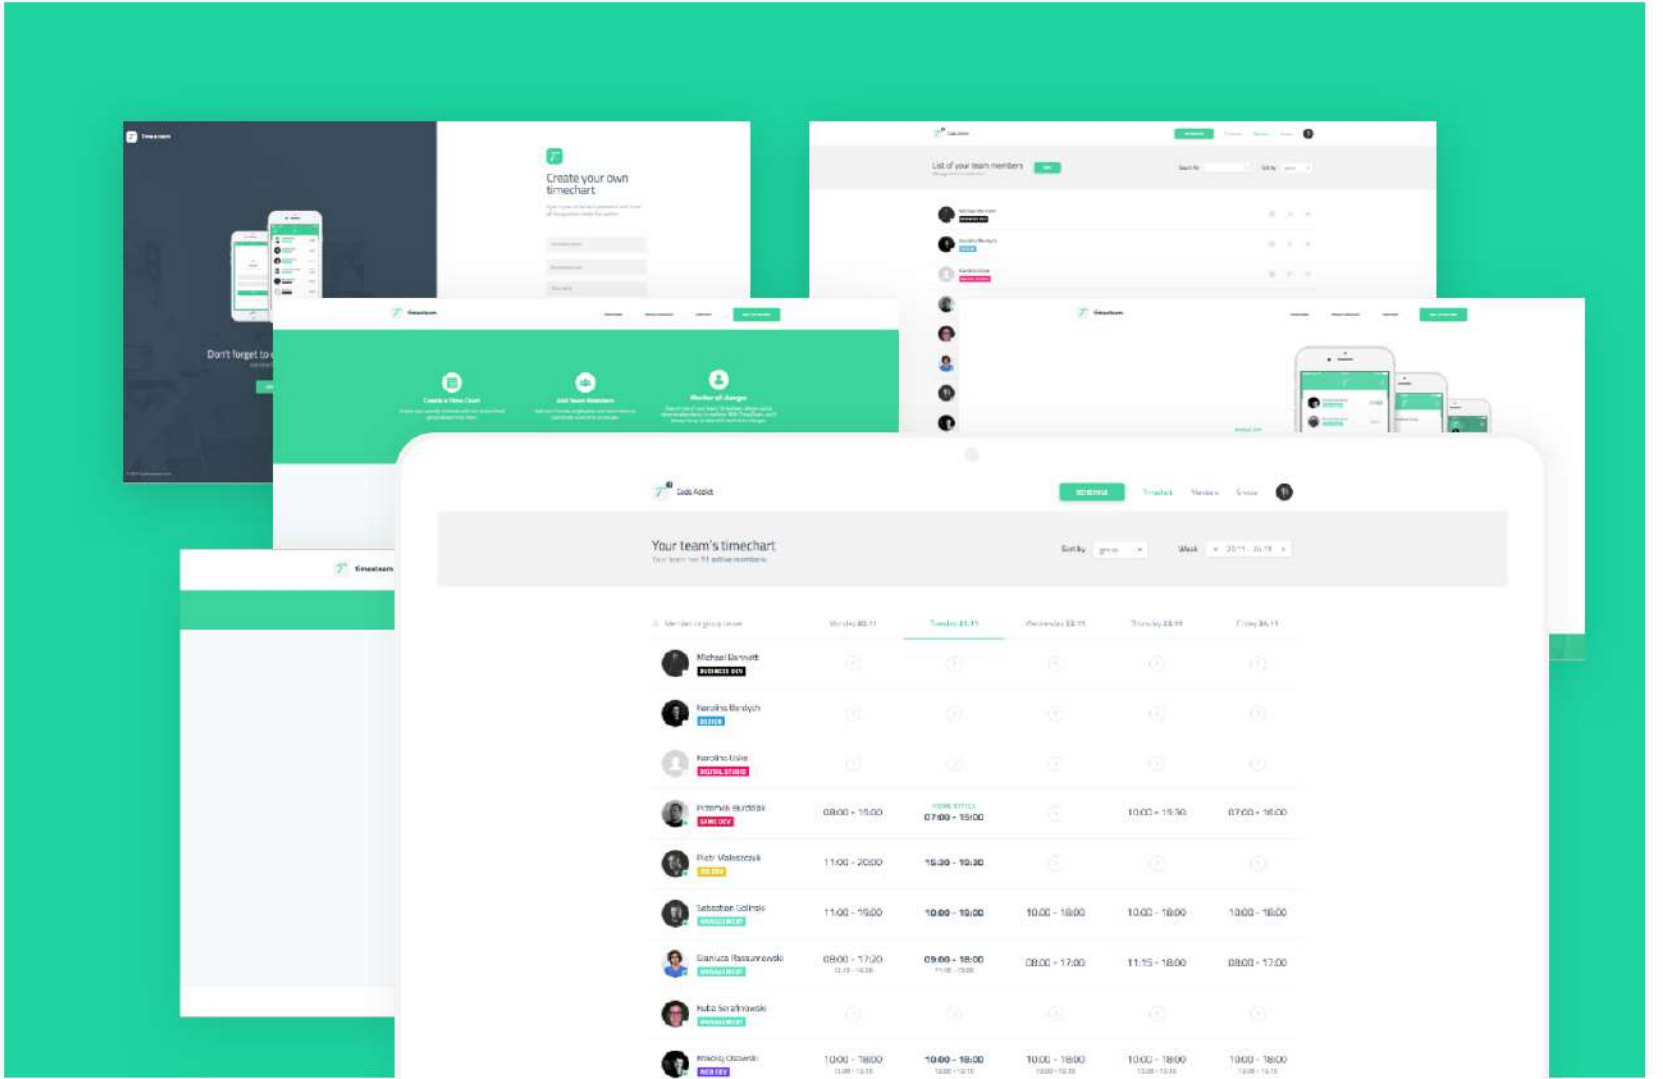

## RWD, Web and Desktop Apps

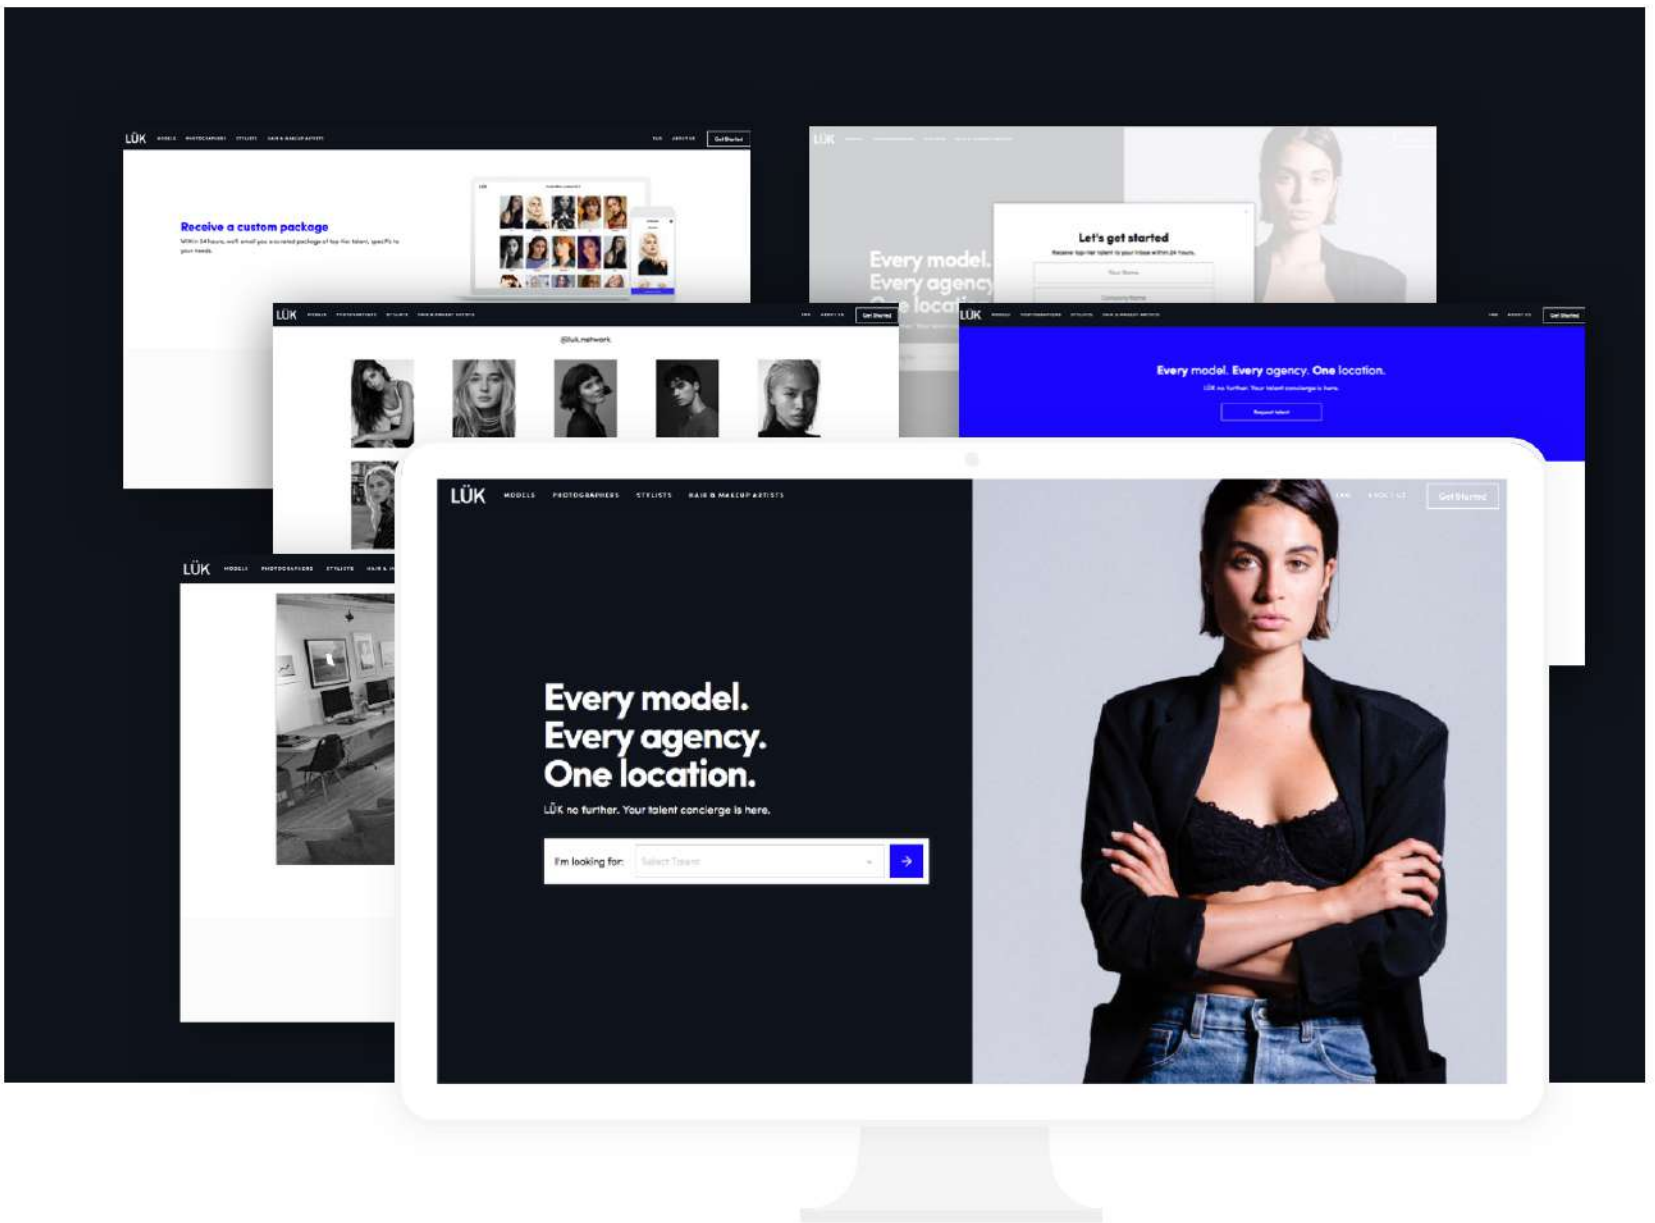

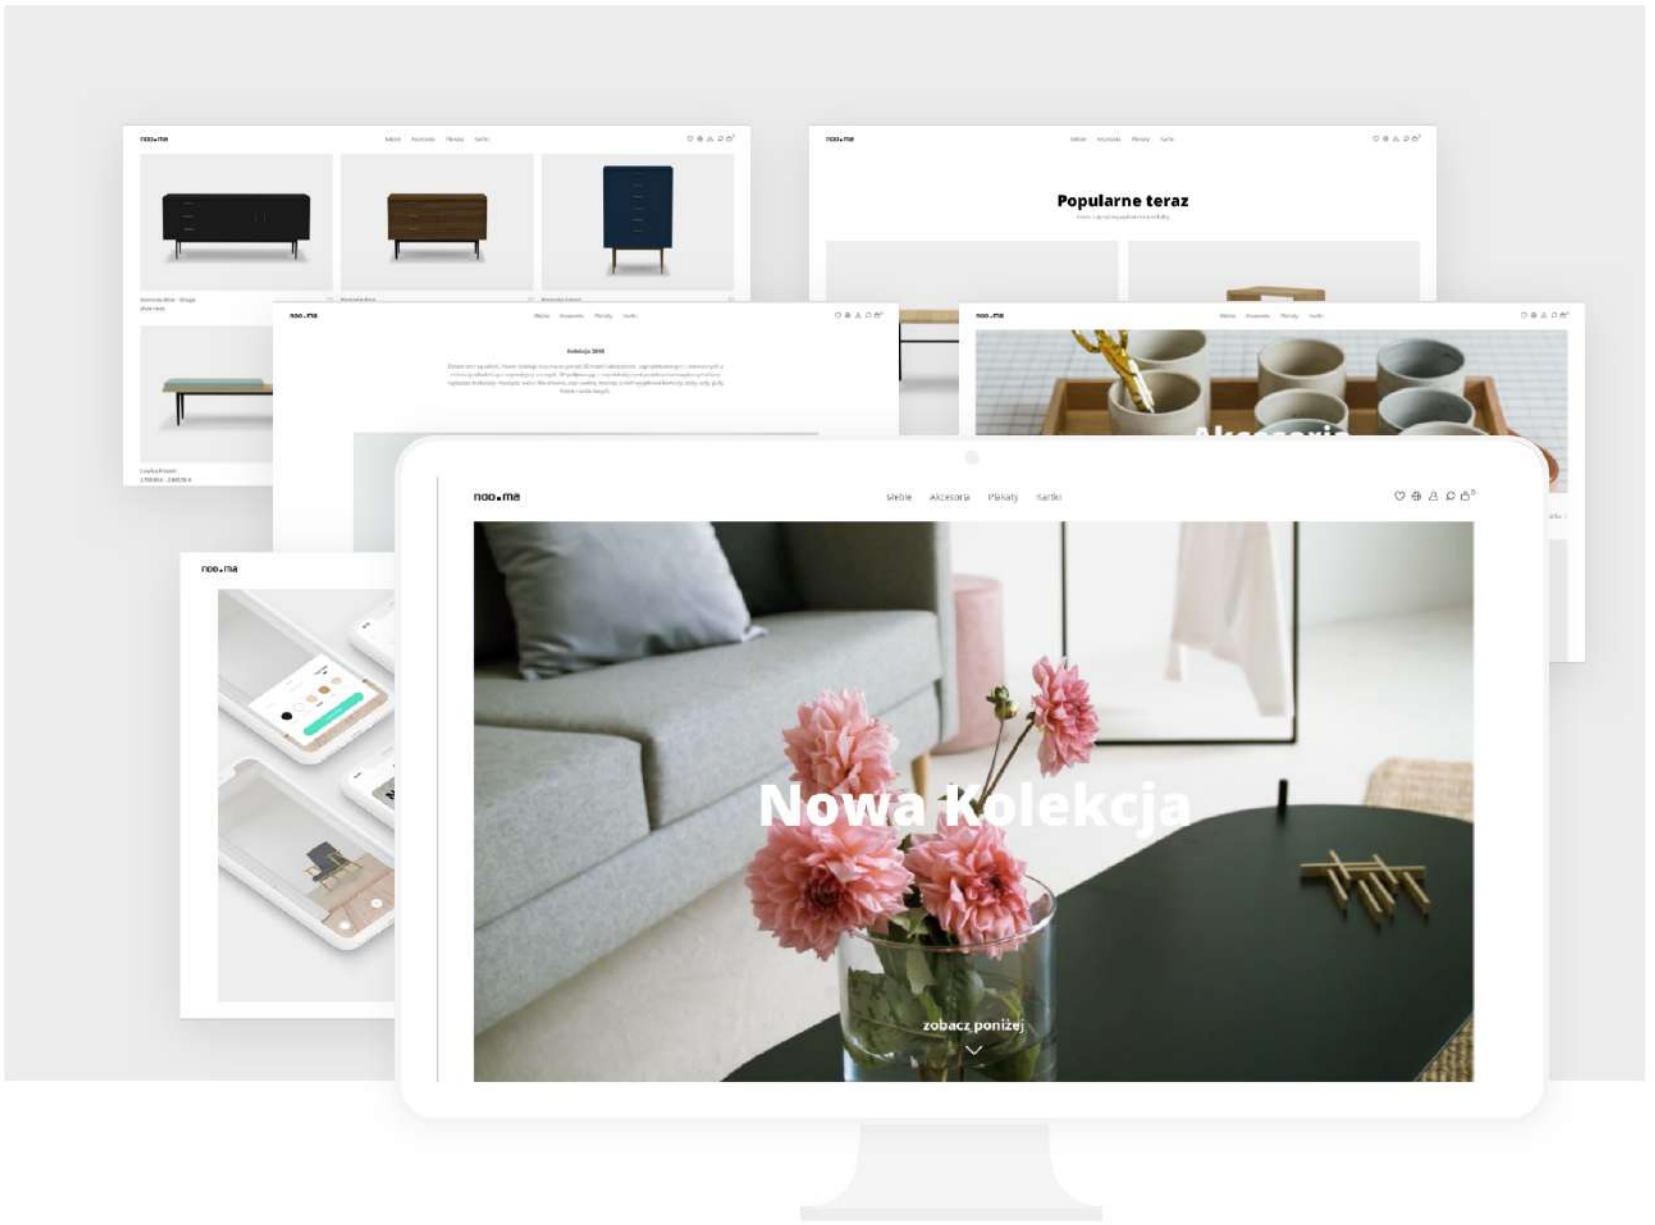

Web development is our bread and butter. From the front-end to the back-end and everything in-between, we have you covered.

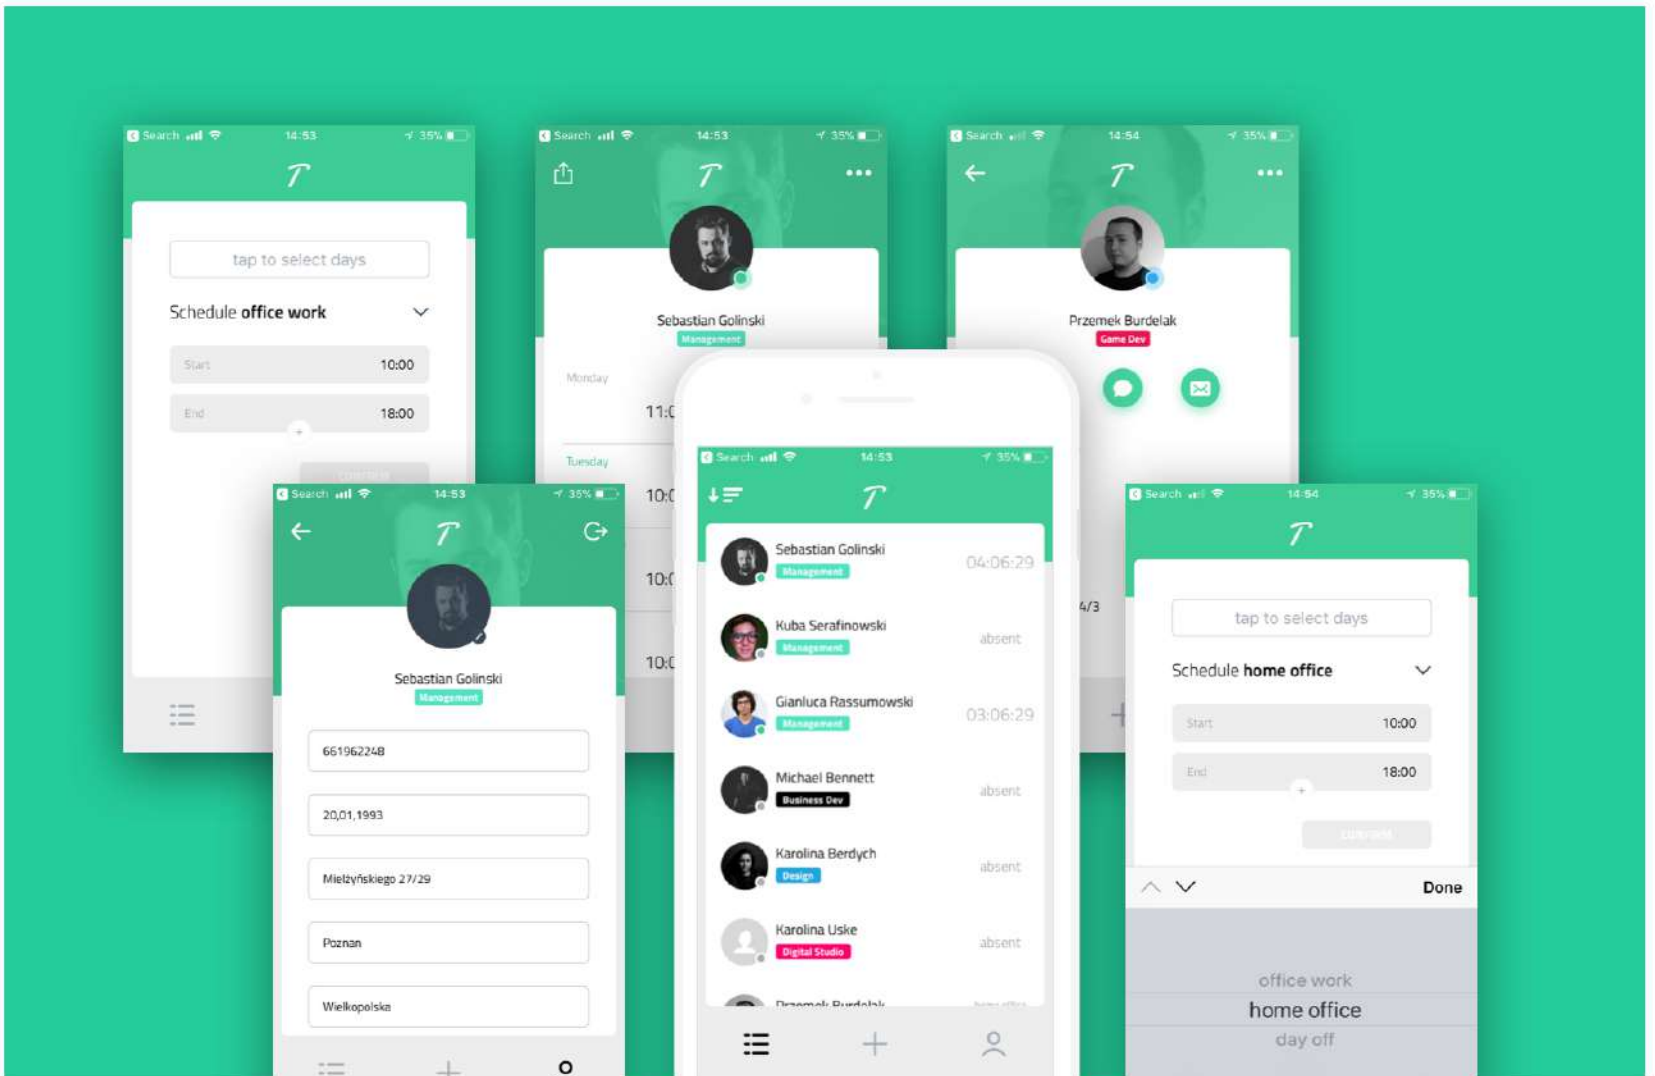

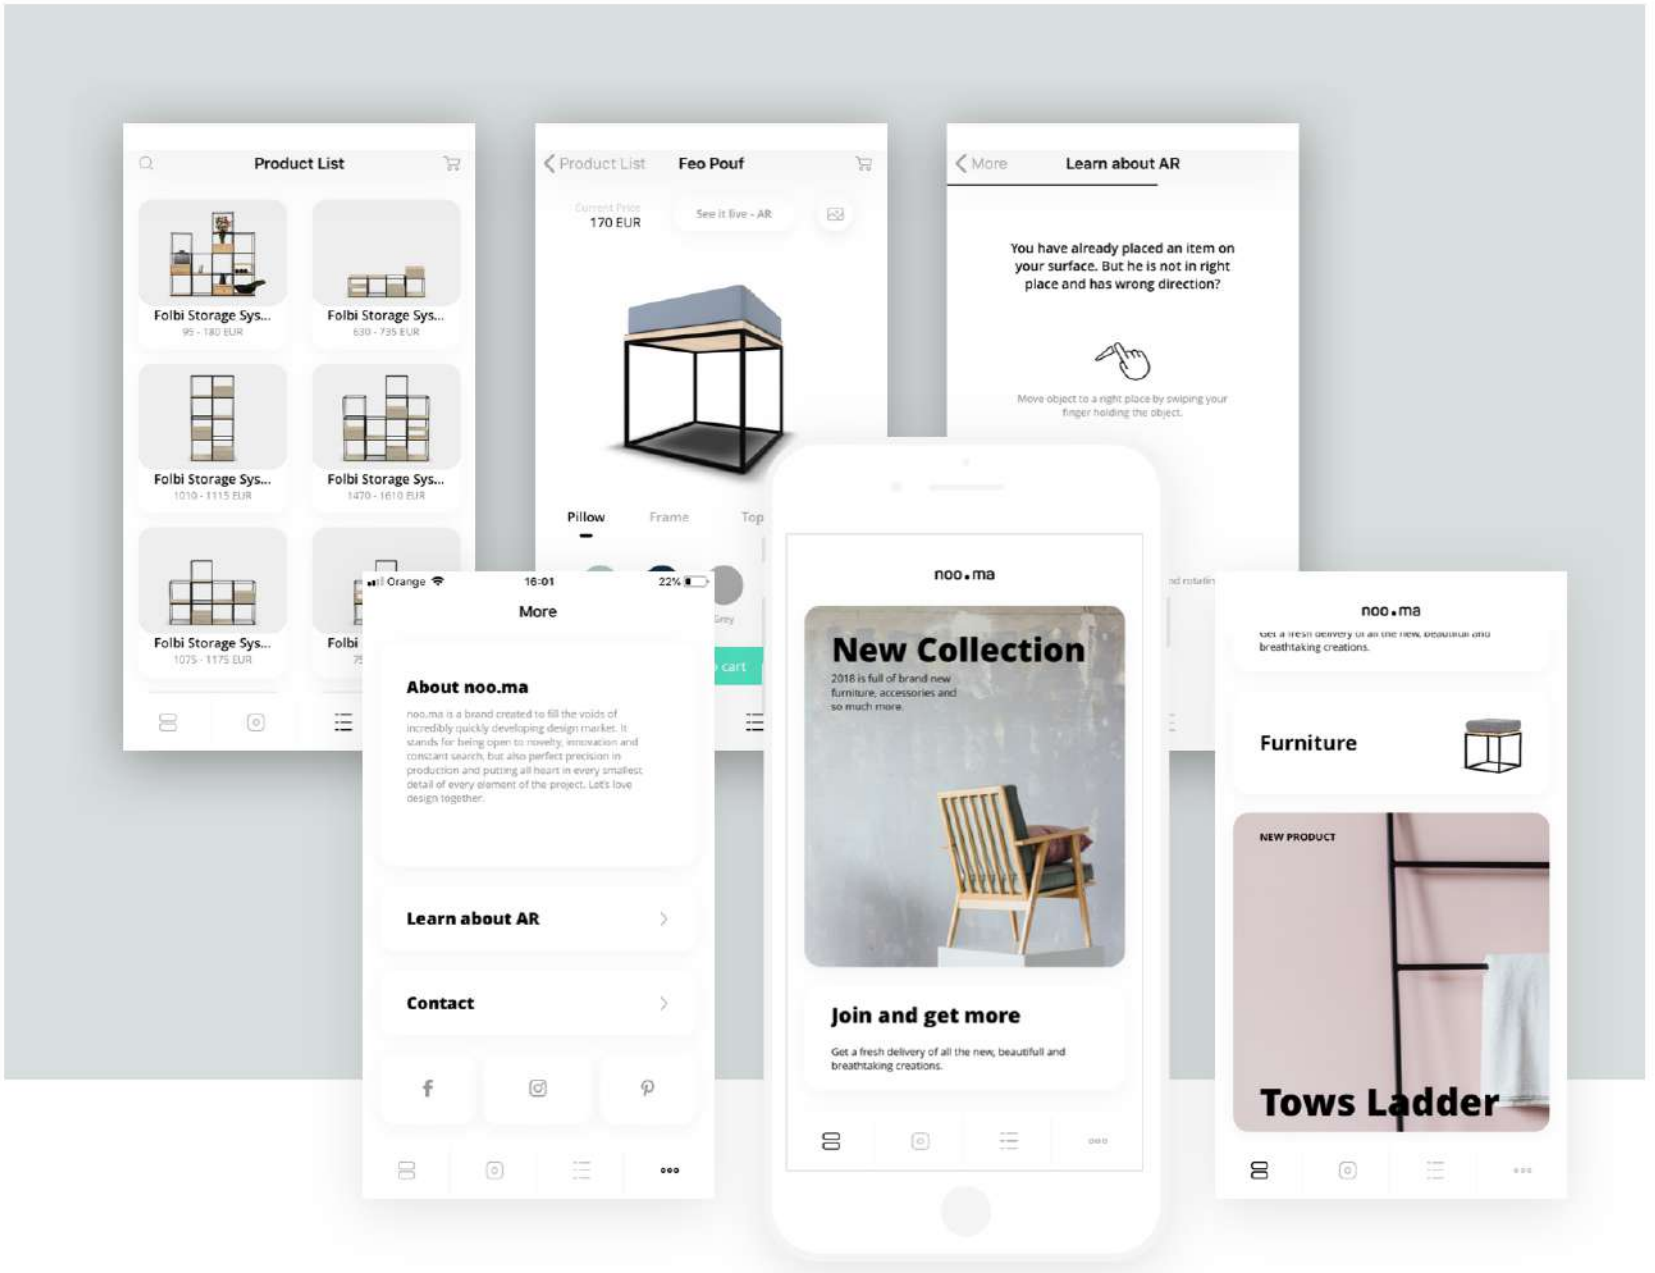

**SKETCH, PRINCIPLE, ADOBE**

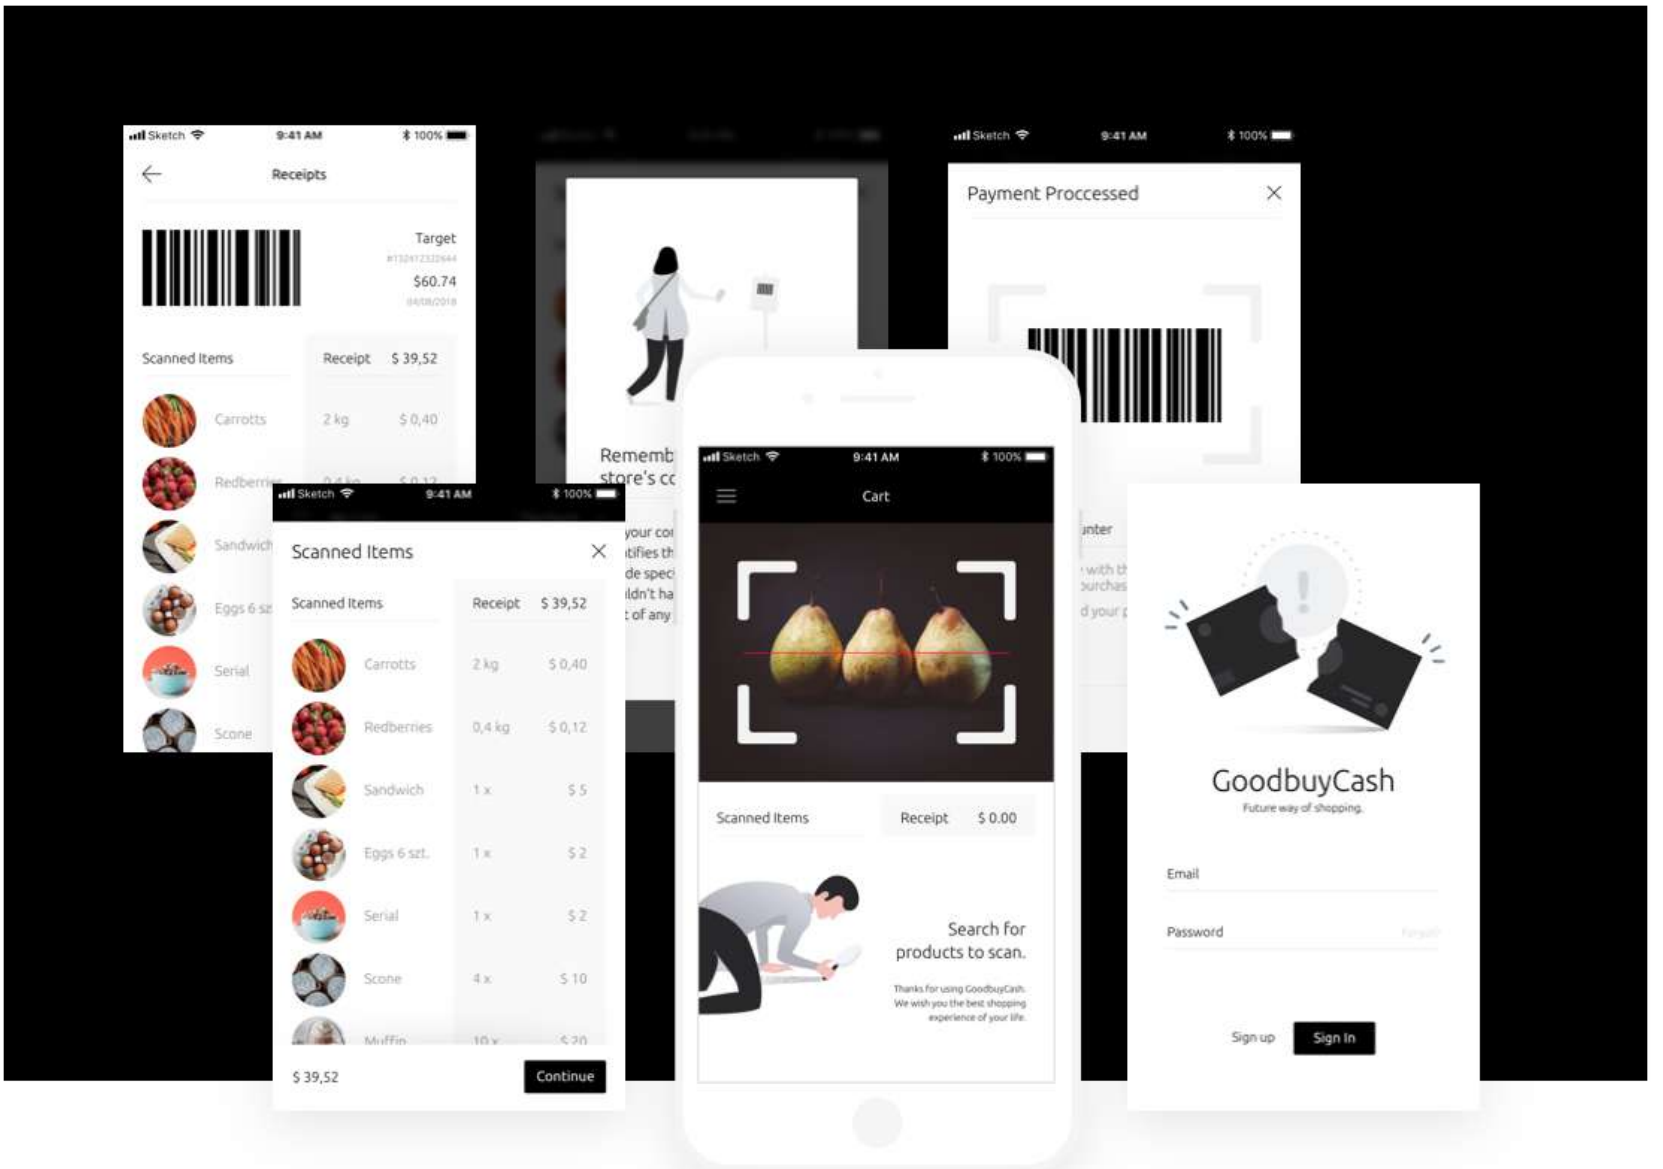

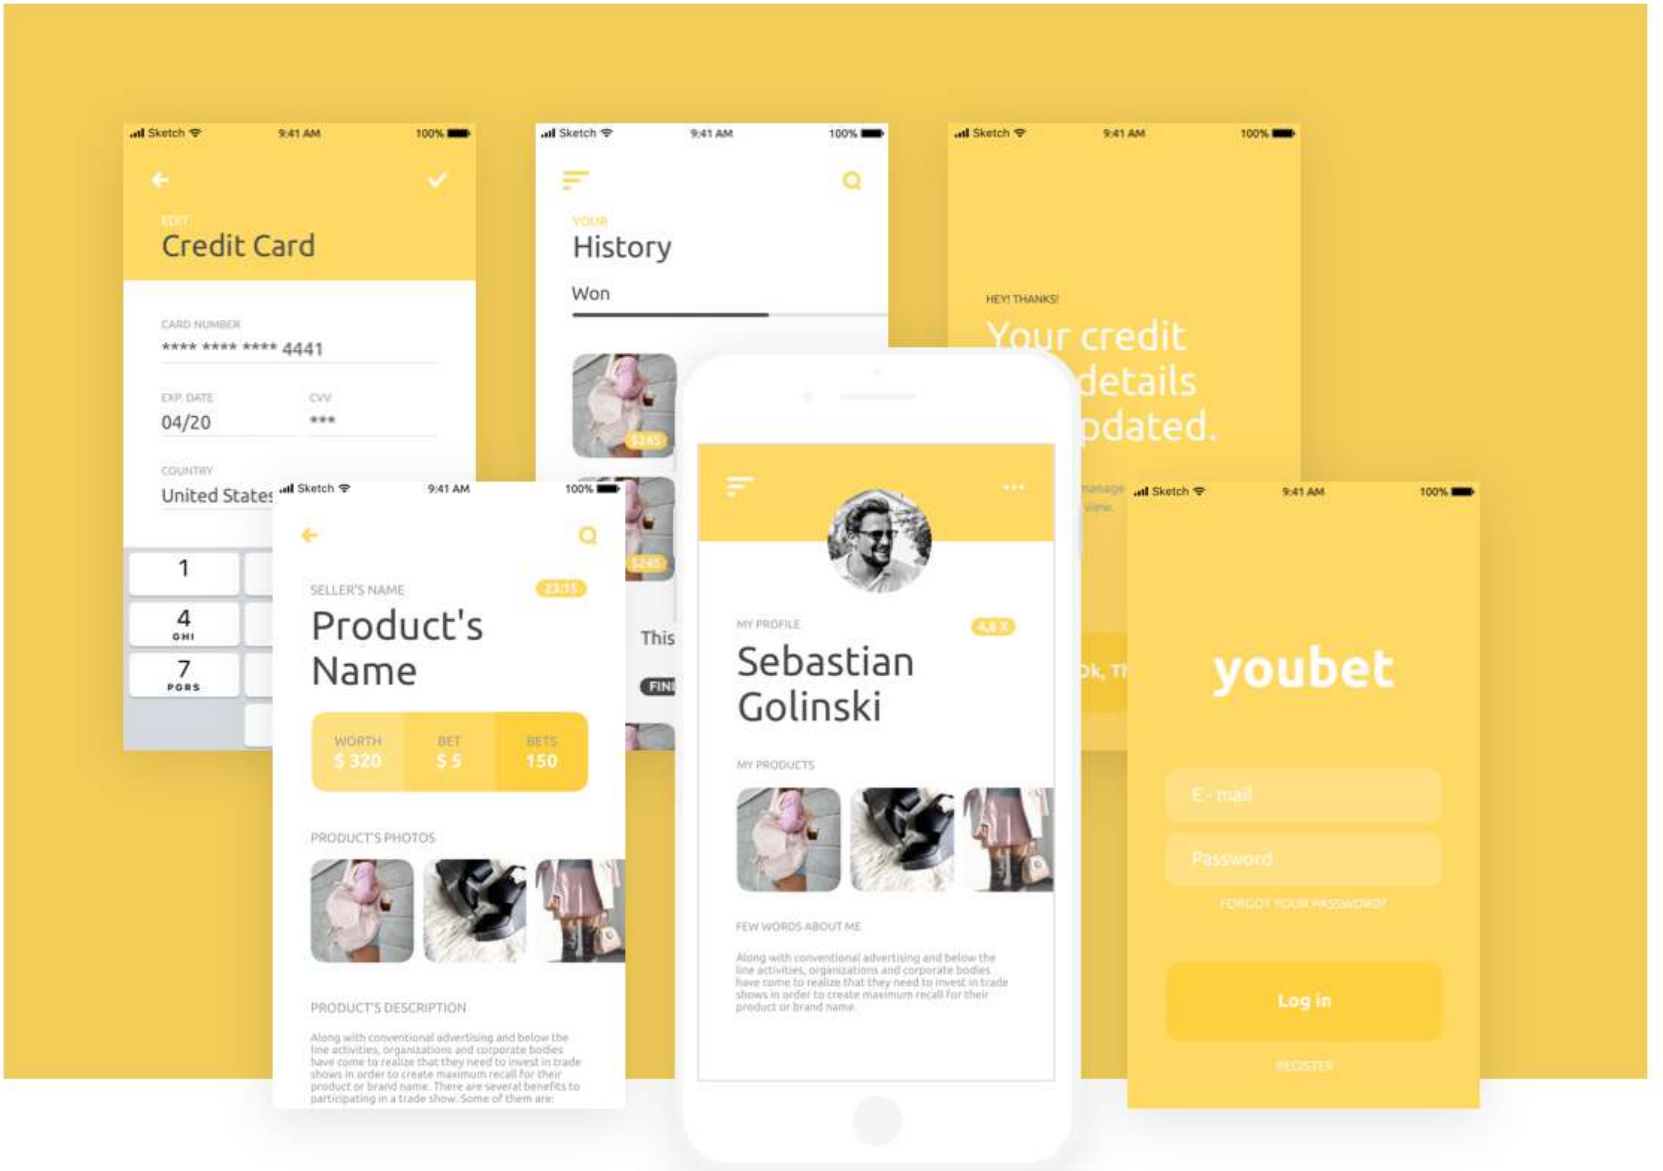

## UX / UI Design

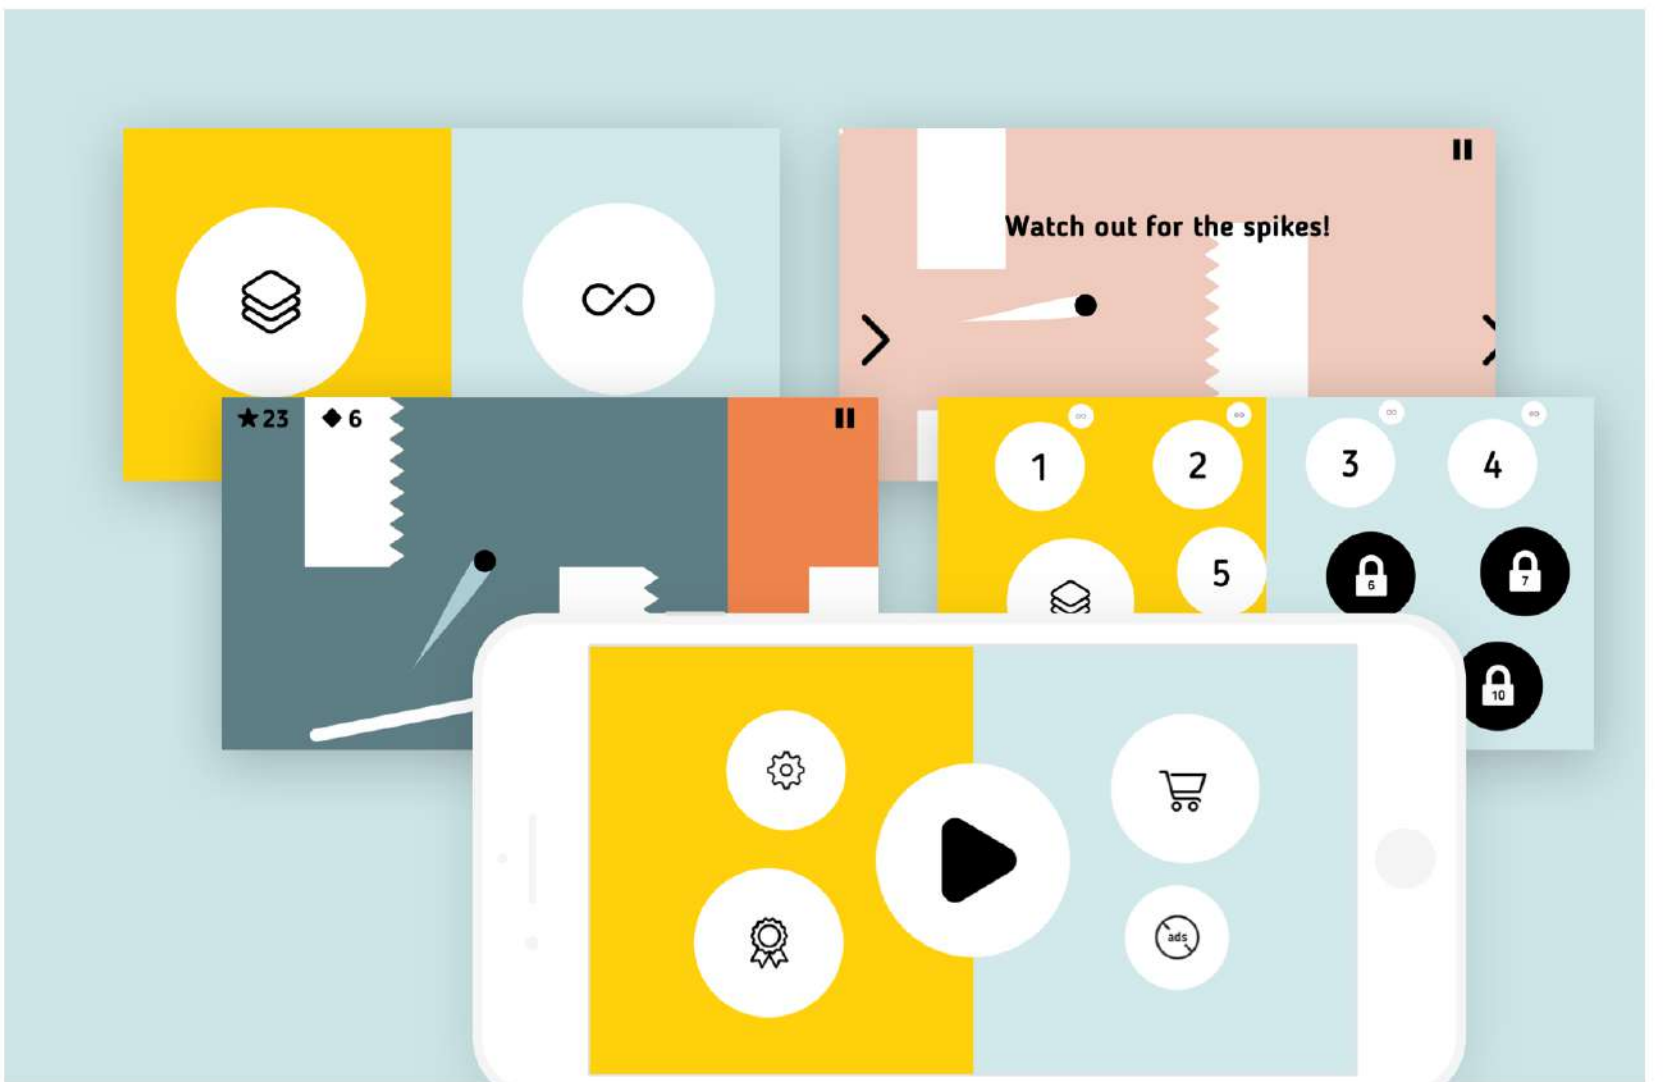

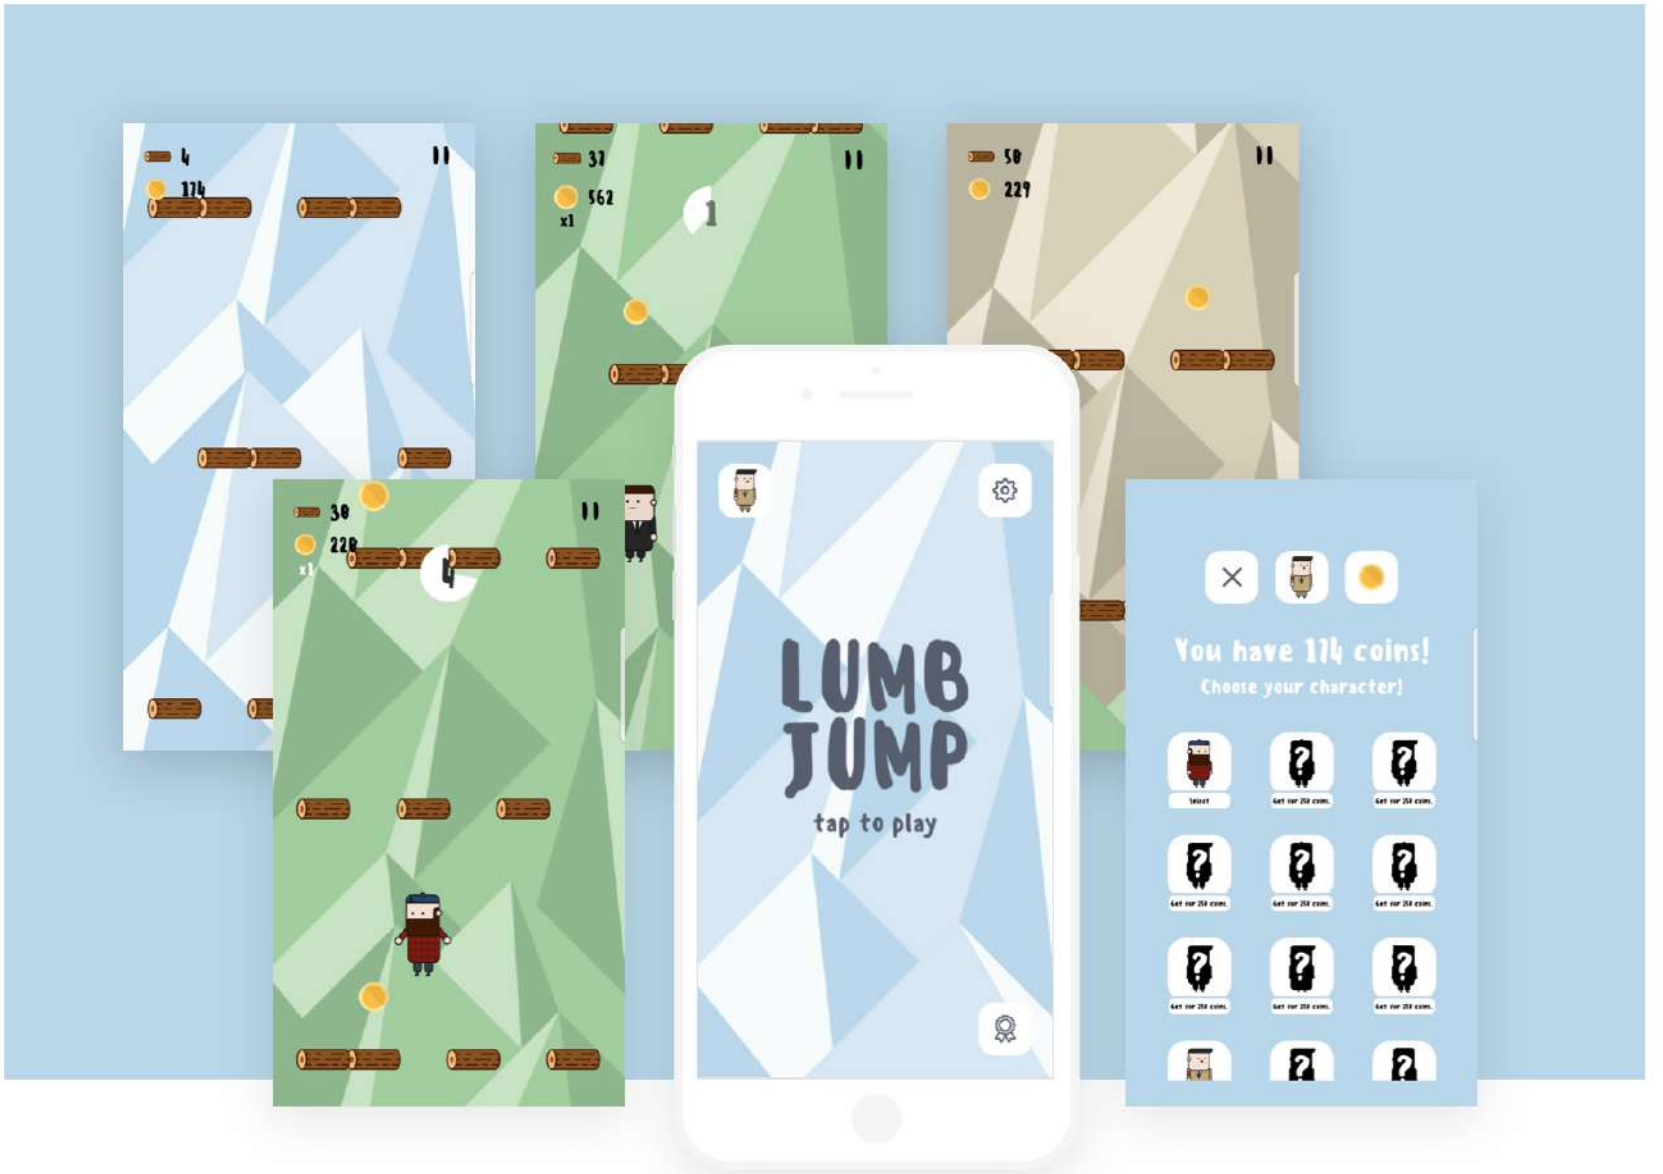

We don't mess around when it comes to design. Code Addict began as graphics-oriented company so we understand looks do matter.
